He had been in jail 45 days and Judge Hughes gave him a sen tence of 45 days, making a total of 90 days' imprisonment Mr Campbell was in attendance at court three days coming a distance of 350 miles. Under the law the court issued an order that he be paid \$20 50 for attendance at court and mileage, and this ended an expensive case to the county, which began in a spree Certainly Campbell was nearly as much responsible for the expense as May, and yet he gets \$20 50 He should have been fined that amount for taking up with May, and paying for the drinks until in the shuffle with the watch the It will be held at the office of County Superintendent Evans on Saturday, Nov Anthmetic for November—M. ### 'HOME COMFORT" FURNACES.

Wrought Steel, Malleable Iron, Very Little Fuel, No Leaky Joints.

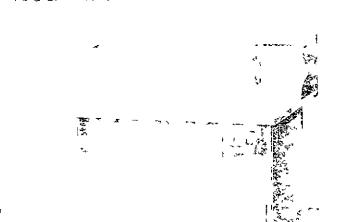

No one can say that the time was not ripe for a new furnace. The days of brittle, porous, east non furnaces are numbered. In every branch of manufacture cast non 15 being driven out by wrought iron and steel Every bridge that goes down in a wreck of lives and property is found to have cast iron members. Every bursting cannon which slays its friends rather than its enemies is made of east iron. Every 1 ky furnace which poisons a household with its noisome gases is found to be made of the same cheap, unreliable material. Improved methods of manufacture have made steel and iron plate, of first quality, less expensive than cast iron formerly was, and it is plainly in accord with progress in other directions that there should be progress both in design and the material of furnaces for warming our homes, churches and schools.
